

# RULES OF EVENTS

Any registration for the EcoTrail Paris Ile-de-France® 2023 trails implies tacit acceptance of the following rules:

## PREAMBLE:

Due to the global Covid-19 pandemic, and in order to ensure the health safety of runners, strict measures could be put in place by the Organization. These measures, arising directly from the competent authorities, will be those in force on the date of the event and will be scrupulously observed under penalty of sanctions. A specific sheet related to these health measures will be edited and shared with all runners as the event approaches. Thereby, certain articles of these rules may be adapted.

### 3. EVENTS IN SEMI SELF-SUFFICIENCY / SELF-SUFFICIENCY

The principle of individual racing in semi self-sufficiency is the rule adopted for event ranging from 18km to 80km. On the course, refreshment areas are supplied with drinks and food to consume on site. Only water (excluding other drinks) is intended for filling water cans or bags.

The principle of self-sufficient individual racing is the rule retained for the 10km trail.

Each runner must ensure that he has, at the start of each refreshment zone, the quantity of water and food he needs to reach the next refreshment point. No personal assistance is allowed on the course outside the refreshment zones provided for this purpose.

All personal medical or paramedical care is strictly prohibited. It is strictly forbidden to be accompanied on the course by a person other than a competitor regularly registered on the race.

### 4. REGISTRATION CONDITIONS

The weather conditions can be difficult (night, hot, storm). Very good training and a real capacity for personal autonomy are essential for the success of such an individual adventure. To register for the EcoTrail Paris Ile-de-France® trails, it is strongly recommended to have already completed at least:

- For the **Trail 80km**: a 45 km trail
- For the **Trail 45km**: a 30km trail
- For the **Trail 30km**: a 15km running race

### 5. ACCEPTANCE OF THE REGULATIONS AND ETHICS

Participation in the EcoTrail Paris Ile-de-France® events entails de facto acceptance without reservation of these regulations and the ethical charter of the race which can be consulted before finalizing your registration.

Each participant must have a container dedicated exclusively to the collection of waste throughout his race. It should be noted that the participant will be able to recover, if he wishes, a “waste bag” when collecting the race bibs or at the start area (if he has subscribed to the “sending the bib by postal mail”).

The use of this container dedicated exclusively to waste collection is compulsory throughout the race, knowing that checks can be carried out on the courses. Any runner caught knowingly throwing away his waste on the course will be disqualified.

All registrants undertake to take the paths marked out by the organization without cutting. Indeed, cutting a path causes irreversible erosion on the site and therefore permanently degrades it. Failure to comply with this directive will result on disqualification of the ride.

A large number of bins are placed in each refreshment area and must be used for selective sorting of waste by the organization.

Participants must strictly respect the visiting regulations for the following sites that the EcoTrail Paris Ile-de-France® routes rake: l'Observatoire de Meudon, le Domaine national de Saint-Cloud et le Parc de l'Île Saint-Germain.

By registering, each participant expressly the ethical charter of the event below:

#### B. RESPECT PEOPLE

- DO NOT HARM the participants.
- DO NOT HELP CHEATING, neither before, nor during, nor after the race, which means that you limit your help to runners at the refreshment stations.
- RESPECT OTHERS, whether they are runners, volunteers, other spectators / accompanying persons whom you will not fail to meet during the event.
- For everyone, the EcoTrail de Paris Ile-de-France® must be a FESTIVE MOMENT.

The participant guarantees the accuracy of the data transmitted as well as the authenticity of the supporting document when it is submitted. In the absence of accuracy and / or authenticity, the participant may not take action against DOKEOP SAS or against the Organization, in particular in the event of an accident occurring during the EcoTrail Paris Ile-de-France®.

No bib will be issued if the valid medical certificate has not been validated by DOKEOP SAS.

DOKEOP SAS reserves the right to refuse any document that it deems to be suspicious and possibly falsified in the light of a bundle of clues. It is recalled that the production of a false medical certificate constitutes an offense of forgery and use of forgery: article 441-1 of the Penal Code punishes this offense with a penalty of up to three years in prison and a fine of 45,000€.

The invalidation of a medical certificate by DOKEOP SAS may in no case be the subject of a request for reimbursement of registration fees from the runner.

Anyone retroceding his bib to a third party will be responsible in the event of an accident occurring or caused by the latter during the event, the organization declining all responsibility in this type of situation.

## 10. BIBS

Each participant must present a photo ID when collecting the bib envelope in return for which he will be given his bib.

The bib must be worn on the chest or on the stomach and must be visible at all times and in full during the entire race. It must therefore always be positioned above any clothing and cannot in any case be attached to the bag or a leg. The name and logo of the partners must not be modified or hidden.

The bib is the pass necessary to access the shuttles, buses, refreshment area, toilets and drop-off and bag collection areas.

## 11. TRANSPORT TO THE DEPARTURE AREA

As part of its eco-responsible policy, the Organization offers you the possibility of free use of public transport (RER and suburban trains) to reach the starting area of your race from Paris. To this end, if you have checked the "transport" option when registering online, an SNCF transport ticket will be included in your bib envelope and you can reach your departure area via this "soft" transport.

In the exceptional case of the transfer of the bib (article 7.4), the options are not active. You can collect a transport ticket to reach the start area at the bib collection village.

The Organization does not have "trains" dedicated to runners. You will therefore be using the existing trains with other passengers.

It is therefore important to note that any problem (delay, cancellation of trains, accident, ...) that may occur during your journey to reach the departure area cannot be attributed to the Organization and does not give rise to any reimbursement. registration.

## 12. TIMING, CHIPS AND GEO

The timing rules that apply to EcoTrail Paris Ile-de-France® on all Trails are as follows: **real time**

The timing will be carried out using a system of chips stuck to the bib. All registrants will be given a bib with a glued chip that will be used to measure the participant's time over the entire distance. Timing mats will be installed at the various points of the course. A competitor who does not cover the entire distance cannot be classified on arrival. The runner undertakes on his honor not to anticipate the start and to cover the entire distance before crossing the finish line.

For the **Trail 80km only**, an electronic chip to hang on the backpack is given individually to each runner in addition to the chip stuck to the bib. This must be placed as stipulated in the technical instructions. Each runner is responsible for the proper use of the chip. The runner cannot be timed in the following cases:

- not wearing the chip
- loss of the chip
- chip degradation
- non-compliant chip port

For following "elite" runners, the Organizer reserves the right to provide a geolocation beacon. This tag must be worn by the runner throughout the duration of the event according to the instructions of the Organization. The use of these beacons can be used to locate the runner in real time and to authenticate the result, in particular by verifying that the runner has completed the entire course.

### 13. SACS PARTICIPANTS POUR L'ARRIVEE

Each competitor may bring his bag intended for personal belongings (change of clothes, toiletries, etc.), the capacity of **which must not exceed 20 liters** (the Organization reserves the right to refuse bags whose capacity exceeds 20L). A self-adhesive label given in the bib envelope must be stuck on the bag.

#### **Practical arrangements:**

Each competitor can leave his personal business bag in the starting areas at the following times:

- **Trail 80km**: between 09:30 am and 11:45 am

The bags are delivered on presentation of the bib:

Beyond these times, the runner must come himself to collect his bag, at his expense, from the organization in Issy-les-Moulineaux.

Only bags respecting the terms imposed by the organization will be sent. As the contents of the bags are not verified, no dispute on the contents on arrival is admissible. It is recommended not to place valuables there.

All bags must be collected from the Organization within a maximum of 30 days of the end of the event. Beyond this period, the contents of these bags will be donated to charities.

## 14. SAFETY AND MEDICAL ASSISTANCE

On the parts of the route using public roads, each participant must comply with the highway code and will be solely responsible for any breach of these rules.

The flaggers are present at strategic points of the course to ensure the safety of the runners. Each participant must comply with the instructions given by the flaggers.

A first aid station is located at each refueling. These stations are connected by telephone with the race HQ. A medical regulatory team is present throughout the event at the race HQ.

The first aid stations are intended to provide assistance to any person in danger with the means specific to the organization or contracted. The official doctors are empowered to disqualify (by invalidating the bib) any competitor unfit to continue the event. Rescuers are empowered to evacuate runners they deem in danger by any means they need.

If necessary, for reasons always in the interest of the person rescued, the fire brigade or SAMU will be called in, at that time, the operations management will implement all appropriate means.

The costs resulting from the use of these exceptional means will be borne by the rescued person who will also have to ensure their return from the point where they have been evacuated. She can then submit a file to her individual personal accident insurance.

Any runner calling on a doctor or a first aid worker submits to his authority and undertakes to accept his decisions.

## 15. RUNNERS CARE

Physiotherapists, osteopaths and chiropodists will be present at certain refreshments and in or near the finish area to provide assistance to participants after their arrival in the events ranging from the Trail 30km to the Trail 80km. Access to care is only possible for participants wearing a bib. Access to care and its nature are left to the discretion of the nursing staff, in particular depending on the number of people.

“Flying” control zones are set up at several places on the race route. Their location is not communicated by the organization and the means of control will be specified to participants during the pre-race briefing.

Only runners with a visible bib have access to the refreshment areas. The logbook will identify the precise list of refueling points. The refueling points are supplied with drinks and / or food to consume on the spot and still water in order to fill his pocket or his gourd.

**IMPORTANT: No cups will be distributed at the refreshments.**

## 17. MAXIMUM AUTHORIZED TIME AND TIME BARRIERS

Is considered as “Finisher” the participant having crossed all the intermediate points and the finish line in the maximum time allowed. The time barriers are as follows:

The times and mileages above are subject to change until the last moment depending on the one hand on the constraints of the route and on the other hand on the weather constraints.

Important : Competitor who leave a zone delayed out and continue until finish made it under his own responsibility and will be not ranked.

These time barriers are calculated to allow participants to reach the finish line within the maximum time imposed, while making any stops (rest, treatment, etc.). To be authorized to continue the event, competitors must leave the feed zone before the fixed time limit (regardless of the time of arrival at the feed zone).

Any competitor disqualified and wishing to continue his course may only do so after returning his bib, under his own responsibility and in complete autonomy.

Under no circumstances can he be considered as a "Finisher".

In the event of bad weather conditions and / or for safety reasons, the organization reserves the right to cancel and / or stop the current event, or even modify the time barriers in conjunction with the prefectures concerned.

## 18. SHOWERS

It is possible for participants of the **Trail 80km**, **Trail 45km**, **Trail 30km**, to take a shower in Paris at the Gymnase Emile Anthoine (Paris 15th).

## 19. ABANDONMENT AND RAPATRIATION

Unless there is an injury, a runner must not retire elsewhere than in a feed zone. He must then notify the person in charge of the zone who will collect the bib and chip of the withdrawing runner. The runner keeps his bib because it is his pass to access the shuttles, buses, refreshments, treatment rooms ...

A runner who has abandoned will systematically and compulsorily notify the race HQ (by phone or by SMS to the special number indicated on the roadbook and on the bib). Repatriation will be decided with the head of the post according to the following general rules:

Buses are available from the municipalities indicated on the roadbook to repatriate runners who have abandoned to the finish area.

Runners who abandon at another aid station but whose state of health does not require evacuation must return as quickly as possible and by their own means to the nearest repatriation point. In the event of unfavorable weather conditions justifying the partial or total stopping of the race, the organization ensures the repatriation as soon as possible of the stopped runners.

In the event of abandonment before a refreshment point and returning back, during the meeting with the file-holders, they will recover the bib and the chip. The runner will then no longer be under the control of the organization. He will then have to inform the race HQ by any means of his safe return (by phone or by SMS to the special number indicated on the roadbook).

## 20. PENALTY; DISQUALIFICATION

Controllers on the course are empowered to check the compulsory equipment and, more generally, compliance with the regulations (identity of the runners, respect for sites, ethics, illegal assistance or accompaniment, bib not visible on the front at all times. ...).

Time penalties will be awarded by the controllers to riders whose compulsory equipment is missing, according to the summary table below:

The total absence of compulsory equipment, during a check on the course or at the finish, will result in the immediate disqualification of the runner, without any possibility of appealing this decision.

A minimum penalty of half an hour is applied for any other breach of the rules. The controller informs his post manager and / or the race HQ and may request, depending on the seriousness of the act and the rider's behavior, the disqualification of the competitor. The event jury may pronounce the disqualification of a competitor for any serious breach of the regulations, in particular in the event of:

- doping or refusal to submit to doping control.

## 21. COMPLAINTS

They are admissible in writing within 72 hours after the provisional results are posted online on the event site.

## 22. ANTI-DOPING CONTROL

Any competitor may be subject to doping control during or at the finish of the trails. Refusal to submit will result in immediate disqualification. Any positive test will result in exclusion for life from the events organized by ECO-TRAIL ORGANISATION.

## 23. EVENT JURY

It consists:

- the organizer,
- the race director,
- referees appointed by the FFA (for the 80km Trail only)
- the coordinator responsible for security,
